

German Cockroach Pre-Treatment Checklist

Description of Treatment

A German Cockroach treatment consists of our technicians using an insecticide to treat:

- Harbourage areas throughout the home
- Carpeted and skirting areas, internal cracks and crevices where the technician deems necessary
- Cupboards & Wardrobes (where floor space is emptied)
- Warm Areas (eg. around kitchen cooking and heating areas, laundry)
- Internally to the roof void areas, wall cavities and subfloor (unless on concrete slab)
- Internally and externally on any garage, shed and/or carports on property
- Outer walls of the home all the way up to the eaves, including any cracks and crevices
- Around all windows and doorframes

Thank you for choosing Gippsland Pest Management for your German Cockroach Treatment, prior to our arrival please ensure the following has been carried out:

1. General Housekeeping has been carried out, and that all floor areas have been cleared to allow access for treatment. eg. kids toys and clothes have been placed off the floor area onto their bed
2. Ensure all shoes and pet bowls have been brought inside away from the external treatment area.
3. Ensure washing has been removed from your clothesline.
4. Ensure all windows and doors are closed prior to and during treatment and until the chemical has dried. Approx. 1-2 hours.
5. That arrangements have been made for all pets such as dogs, cats, birds, fish, rabbits and guinea pigs to be isolated away from the treated areas until they are dry (this may require them to be offsite for 4-24 hours)
6. That arrangements have been made to vacate the premises after our technicians arrival for a minimum of 4 hours
7. That our technicians are aware of any ponds or pet fish at the property.
8. All shedding and garage areas that you would like treated are unlocked and access is available for our technician.
9. Please advise our technicians if there are any areas of your home you would like to have excluded for our technician

Payment Options

Payment for this treatment is required on the day of treatment, Gippsland Pest Management can accept payment via Cash, EFT & Cheque.

IMPORTANT NOTE: After Treatment

After your treatment please ensure any dead cockroaches are vacuumed up and that all food preparation areas are cleaned/wiped down before being used
